

Getting there...

This small sector involves a pleasant walk through the woods on a cycle track. Leave your car at the Darkhill car park near Ellwood. Walk out of the far-right corner of the car park and turn right at the gate. Follow the track until you come to the road, with its wooden gateway. Cross the road and just left of the gate is a track, follow this. Go left at the fork and join a wider track under the yellow posts. On the other side of the track sit a pair of small boulders. Follow the narrow track up between these boulders to join another wide track, and turn left. At Telegraph pole number ZLYEA19, turn left and go down through the ferns next to the wire fence. At the end of the wire fence, turn right, add a rock to the cairn and see the rather impressive Telegraph Boulder. For parking see page 57.
